

Please leave my XM radio channels alone. Your inability to offer progressive programming and stay current with technology is the reason XM exists. For 20 years or more you have allowed mega companies to swallow up small stations and have turned radio into a mind numbing experience. We don't want the state to dictate the format or line up of stations and services that satellite radio offers. I pay for this service and should have the right to listen to what XM currently offers and what it will evolve to offer. Please tell the NAB to wake up and leave us alone. Thank You, Ronald Erickson
